

FL SWAIR

in tune with nature

www.flswair.com

A New Innovation in the name of "FL SWAIR" was launched in January 2009 with just 1 founder and 3 professionals. It has gone to more than 50 experienced professionals worldwide and looking to grow in future. FL Swair derives its name from Fire, Land, Sky, Water and Air with a thought that no technology can be found apart from these five elements.

We have started off with products that come under five major divisions, added two more divisions before the end of this year (2009) and are planning to get into more divisions in the coming months.

Our one year renovations and efforts splits our office center globally running up innovative ventures over India (Chennai and Mumbai) and U.K.

"Our innovations will not stop till our last breathe" and venturing new offices, Innovations begins shortly over other countries into global remuneration and renovation in technological strategy through FL SWAIR.

Our new venture to begin at Singapore very soon.
